Mayor

City of Murray

Sanitation Services Update

Sanitation services are scheduled to resume tomorrow. Extra garbage trucks will be running in Murray to get everything caught up by Saturday. For residential customer's whose service day was either Tuesday or Wednesday, your carts will be serviced tomorrow, Thursday Feb 2nd. Thursday route will be collected on Friday. Today's Recycling route will be collected on Friday, Feb 3rd.

For all commercial customers, who were not serviced yesterday and/or today, extra commercial trucks will also be running. The commercial dumpster trucks will be conducting a "clean sweep" to get everything caught up. Please make sure any trash that will not fit within your dumpster is sat to the side of the dumpster and not in front where it would block access to the dumpster. Once the dumpster has been initially emptied, the driver will refill the dumpster with the overage that has been set to the side and then empty the dumpster again to collect all the overage.
