**Public Hearing - Amendment to Zoning Ordinance – Section III, Article I – Sign**

**Regulations:** Justin explained that the committee was formed in May 2015 to explore and make recommendations for amendments to the Zoning Ordinance. This committee was to enhance business process and planning. The recommendation that came from the committee was to have a more in-depth review of the Sign Ordinance; to identify outdated and possibly redundant restrictions; and to provide ways to change those. The Planning Department has had a lot of help from other staff members on this project. Justin thanked each of them for their “brain-storming” sessions and their help with the proofreading. He also thanked the City Attorney’s David Perlow and Warren Hopkins and the Planning Commissioners for their support and hard work.

Staff has addressed the majority of the corrections suggested by the Commissioners. At this time Justin showed the updated Sign Regulations in a Word document (where changes could be made on the screen as the Commissioners reviewed it). Maurice passed out paper copies of the Sign Regulations as well. There is a new format to the Zoning Ordinance which includes an index with a new numbering system to allow easier use for the staff and others that might be looking for a particular regulation. The proposed amendments to the Sign Regulations were reviewed with suggestions made for changes. Justin explained that the permit fees were left blank for the purpose of letting the Finance Department and the City Council decide on these items.

Chairman Kind opened the public hearing and asked if there was anyone that wished to speak in favor or in opposition to the amendments. No one came forward to speak in favor or in opposition; therefore, the public hearing was closed at that time. The item was turned over to the Commissioners for a motion.
