#### ADMINISTRATIVE STAFF

Dr. Jack Rose, Mayor Kimberly Wyatt, Director of Finance

## FINANCIAL SECTION

#### **Independent Auditor's Report**

Honorable Mayor Jack Rose and Members of the City Council City of Murray, Kentucky

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Murray, Kentucky, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Murray, Kentucky's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Murray, Kentucky, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matter**

During fiscal year ended June 30, 2018, the City of Murray adopted GASB Statement No.75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions, which resulted in a restatement of the July 1, 2017 net position in the amount of \$(4,992,878). Our auditors' opinion was not modified with respect to the restatement.

P.O. BOX 488 | <sup>\$</sup>: 270-247-8050 1214 Paris Road | <sup>\$</sup>: 270-247-7749 Mayfield, Kentucky 42066 | <sub>\$\vee\$</sub>: krista@romainecpa.net

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-7, the budgetary comparison information on page 50, schedules related to pensions on pages 44-45, and OPEB schedules on pages 46-47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Murray, Kentucky's basic financial statements. The introductory section and combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2018, on our consideration of the City of Murray, Kentucky's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Murray, Kentucky's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Murray's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2018. Please read it in conjunction with the City's financial statements, which begin on page 9.

## FINANCIAL HIGHLIGHTS

- The net position of all City activities is \$49,532,044. This represents an overall decrease of \$84,554 (17%) over the prior year. A breakout shows an increase of \$3,157,356 (7.3%) in business-type activities and a decrease of \$3,241,910 (52.9%) in governmental activities.
- In the General Fund, revenues and other financing sources exceed expenditures and other uses by \$578,719, increasing the fund balance to \$6,655,692 as shown in the Statement of Revenues, Expenditures, and Changes in Fund Balances Governmental Funds page 13.
- All four business-type activities (Water and Sewer, Natural Gas, Sanitation, and Stormwater Utility) had a combined, positive net income totaling \$4,754,908 as shown in the Statement of Revenues, Expenditures, and Changes in Fund Balances Proprietary Funds page 16.

## USING THIS ANNUAL AUDIT

This annual financial report consists of a series of financial statements. The Statement of Net Position (page 9) and the Statement of Activities (pages 10-11) provide information about the activities of the City as a whole and present a long-term view of the City's finances. Fund financial statements begin on page 12. For governmental activities, these statements provide an overview of how these services were financed in the short-term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts as a trustee or agent for the benefit of those outside of the government.

### The Statement of Net Position and the Statement of Activities

Our analysis of the City as a whole begins on page 4. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse as a result of the year's activities?" The Statement of Net Position, page 9 and the Statement of Activities, page 10 report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net assets and changes in them. The City's net assets (what the citizens own) and liabilities (what the citizens owe) may serve as a way to measure the City's financial position. Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating. Other non-financial factors should be considered, however, such as changes in the City's property tax base and the condition of the City's capital assets (roads, buildings, water and sewer lines) to assess the overall health of the City. In the Statement of Net Position and the Statement of Activities, the City is separated into two kinds of activities.

- Governmental activities Most of the City's basic services are reported here, including the Police, Fire, Street, Planning and Administration departments. Property taxes, insurance premium taxes, occupational taxes, franchise fees, business licenses, alcohol sales fees, and state and federal grants finance most of these activities.
- Business-type activities The City charges fees to customers to help cover all or most of the cost of certain services it provides. The City's Water and Sewer, Natural Gas, Sanitation, and Stormwater Utility departments are reported here.

## THE CITY AS A WHOLE

## **Governmental Activities**

- A year-over-year comparison shows General Fund revenue increased \$1,113,071 (11%) while total Governmental Funds revenue increased \$1,126,495 (9.4%).
- General Fund expenditures increased \$2,045,294 (21%) while total Governmental Fund expenditures increased \$2,162,854 (21%).
- The largest single receipt category, property taxes, increased \$154,107 (3.7%) to \$4,133,393. This increase is due, in large part, to increases in assessments and additions to the property tax roll.
- Effective January 1, 2018, the City of Murray assessed a 1.0% occupational license tax (payroll tax) on all gross earnings by an employee for work performed and services rendered in the limits of the City. Receipts for the partial year are \$2,007,656.
- Effective June 1, 2018, the City of Murray no longer requires the purchase of a city sticker for those working in the city. Receipts for the partial year are \$199,332, a decrease of \$831,564 (81%).
- Grant receipts for the year are \$1,038,501– a 56% increase from the prior year.

## **Business-type Activities**

Murray Water and Sewer System

- The Water and Sewer System's total operating revenues are \$10,188,262. When compared to the total operating expenses of \$5,975,417, an operating income of \$4,212,845 exists.
- The change in net position is an increase of \$3,701,616 when non-operating expenses of \$531,229 and transfers from other funds of \$20,000 are considered.

Murray Natural Gas System

- The Gas System's total operating revenues are \$8,955,224. When compared to the total operating expenses of \$8,986,988, operating loss of \$31,764 exists.
- The change in net position is a decrease of \$99,591 when non-operating revenues of \$37,173 and transfers to other funds of \$105,000 are considered. This decrease is largely due to the recordation of \$675,569 for retirement expense required to disclose a proportional share of CERS pension liability, as discussed in the next section of this discussion.

Sanitation Department

- The City entered into an agreement with Republic Services Waste Solutions on October 1, 2016 to provide refuse collection services within the City limits. The City still owns, maintains control of, and operates the Transfer Station.
- The Sanitation Department's total operating revenues are \$3,445,170. When compared to the total operating expenses of \$2,586,091, an operating income of \$859,079 exists.
- The change in net position is an increase of \$1,110,508 when non-operating revenue of \$8,833 and transfer from other funds of \$242,596 are considered.

Stormwater Utility

- The Stormwater Utility's total operating revenues are \$240,613. When compared to the total operating expenses of \$198,785, an operating income of \$41,828 exists.
- The change in net position is an increase of \$42,375 when non-operating revenues of \$547 is considered.

## **City Pension Costs**

The City of Murray participates in the State's CERS retirement program. Under the County Employee Retirement System (CERS) plan, employee contributions are deposited into two plans- nonhazardous and hazardous. In FY15 the City implemented Government Accounting Standards Board (GASB) Statement No. 68, which requires that the City report and fully disclose its share of net pension liability. CERS has assigned to the City its proportional share of the net pension's liability. "The net pension liability is based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined." As of June 30, 2018, the City's proportional share of net pension liability is \$22,283,046, an increase of 14.9% (\$2,888,541) from last year. While the City reports positive balances of total net position for Governmental and Business-type Activities, disclosing the City's net liability in the County Employee Retirement System has been a driving factor of a negative unrestricted fund balance of \$9,115,212 for governmental funds, as can be seen in the Statement of Net Position page 9.

The following tables provide a summary of the City's year-over-year comparison of retirement costs:

|                                | FYE 6/30/18        | FYE 6/30/17        | FYE 6/30/16        |
|--------------------------------|--------------------|--------------------|--------------------|
| <u>Net Pension Liabilities</u> |                    |                    |                    |
| Nonhazardous                   | \$ 8,855,527       | \$ 8,378,483       | \$7,837,990        |
| Hazardous                      | \$13,427,519       | \$11,016,022       | <u>\$9,909,090</u> |
| Total                          | \$22,283,046       | \$19,394,505       | \$17,747,080       |
| Pension Expenses               |                    |                    |                    |
| Nonhazardous                   | \$1,218,302        | \$1,141,560        | \$881,836          |
| Hazardous                      | <u>\$2,206,897</u> | <u>\$1,246,840</u> | <u>\$952,212</u>   |
| Total                          | \$3,425,199        | \$2,388,400        | \$1,834,048        |

Currently the City of Murray contributes to the two CERS plans based on employee retirement wages. As can be seen below, the City anticipates significant increases in the amount of employee retirement costs in future years, based on contribution rates.

### **Retirement Contribution Rates**

|          | Nonhazardous | Hazardous |
|----------|--------------|-----------|
| FY15-16  | 17.06%       | 32.95%    |
| FY16-17  | 18.68%       | 31.06%    |
| FY17-18  | 19.18%       | 31.55%    |
| FY18-19  | 21.48%       | 35.34%    |
| *FY19-20 | *24.06%      | *39.58%   |

\*House Bill 362 passed during the 2018 legislative session caps CERS employer contribution rate increases up to 12% per year over the prior fiscal year for the period of July 1, 2018 to June 30, 2028.

#### **Other Post-Employment Benefits (OPEB)**

During fiscal year 2018, the City of Murray adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions (OPEB). OPEB requires the City to report its proportional share of the liability for retirement benefits other than pension benefits, namely healthcare benefits. At June 30, 2018 the City's proportionate share of the net OPEB liability of the nonhazardous plan is \$3,041,467 and \$4,961,451 for the hazardous plan.

## **Other Post-Employment Benefits (OPEB)-(Continued)**

A full description of the retirement plans and the associated pension assumptions and liabilities are discussed in greater detail at Note 3-Detail Notes, part G. Retirement Plan, pages 29-34.

A full description of Other Post-Employment Benefits (OPEB) and the associated assumptions and liabilities are discussed in greater detail at Note 3-Detail Notes, part H. Retirement Plan, pages 34-39.

## CAPITAL ASSET AND DEBT ADMINISTRATION

## **Capital Assets**

- In Governmental Activities, property, plant and equipment increased by a total cost of \$2,285,900. This consists of \$12,925 of Construction in Process, \$945,433 in Buildings, \$82,648 in Machinery and Equipment, and \$1,257,819 in Infrastructure. Net of depreciation, the total Net Capital Assets Governmental increased by \$1,763,144.
- In the Business-type Activities, property, plant and equipment increased by a total cost of \$12,117,080. This consists of a decrease of \$709,500 in Construction in Process, an increase of \$1,277,003 in Buildings, a decrease of \$141,871 in Machinery and Equipment, an increase of \$66,115 in Drainage Improvement, and an increase of \$11,625,333 in Utility Plants. Net of depreciation, the total Net Capital Assets Business Type increased by \$10,822,786.

## Debt

- No new debt in General Governmental Activities has been issued during the fiscal year. As of June 30, 2018, the total capital debt outstanding for General Governmental Activities is \$3,012,215, which is a decrease of \$270,536 over prior year.
- \$9,414,661 of new debt in Business-type Activities has been issued during the fiscal year for engineering, construction, and other services related to the Waste Water Treatment Plant improvements. As of June 30, 2018, the total debt outstanding for Business-Type Activities is \$50,774,578, which is an increase of \$8,835,236 over the prior year.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Preliminary data for the City in fiscal year 2019 mirrors the economic uncertainty presently experienced at the State and Federal levels. Rising personnel costs – most notably in the form of healthcare and retirement expenditures – continue to compete with spending in operational areas and on capital projects. As always, the City is constantly monitoring many factors present in today's economy and adjusting funding and expenditure measures accordingly. The City's current revenue sources and enacted rate increases appear to be adequate to provide the quality of service expected for our customers while maintaining a stable tax environment. We will continue to optimize internal and external efficiencies wherever possible in our effort to provide the greatest benefit to our stakeholders at the lowest possible cost.

## CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the City's finances and to show the City's accountability of the money it receives. If you have any questions about this report or need additional financial information, contact the Finance Director's office at 500 Main Street, Murray, Kentucky, 42071.

Respectfully submitted,

Kim Wyatt Director of Finance **BASIC FINANCIAL STATEMENTS**

#### CITY OF MURRAY, KENTUCKY RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For The Year Ended June 30, 2018

| Net change in fund balance-total governmental funds  | \$<br>575,801            |
|--|--------------------------|
| Amounts reported for governmental activities in the statement of activities are different because:   |                          |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital assets exceed depreciation in the current period.               | 1,743,499                |
| The issuance of long-term debt provides current financial resources to<br>governmental funds, while the repayment of long-term debt consumes<br>financial resources of the governmental funds. Neither transaction<br>however, has any effect on net position.   |                          |
| Debt issuance<br>Principal payments on debt  | (113,544)<br>270,536     |
| Accrued compensated absences reported as long term liabilities in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  | 10,654                   |
| Pension contributions are reported as expenditures in the governmental funds.<br>However, pension expense in the statement of activities is primarily the<br>result of changes in the components of the net pension liability over the current<br>and future periods.<br>Pension expense<br>OPEB expense | (2,056,695)<br>(441,036) |
| Internal service funds are used by management to charge the costs of certain<br>activities, such as central garage services and employee health insurance,<br>to individual funds. These net revenue (expense) of these internal service<br>funds is reported with governmental activities.              | <br>164,201              |
| Change in net position of governmental activities  | \$<br>153,416            |

## NOTES TO FINANCIAL STATEMENTS

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **A. Financial Reporting Entity**

The City of Murray, Kentucky was incorporated in 1844, and operates under an elected Mayor-Council form of government, and provides the following services as authorized: public safety (police and fire), streets, planning and zoning, general administrative services, cemetery, and utilities (water and sewer system, natural gas system, sanitation department, and stormwater system).

#### **B.** Basis of Presentation – Fund Accounting

The accounts of the City of Murray are organized on the basis of funds, each of which is considered a separate accounting entity. Each fund is accounted for by a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues, and expenditures/expenses. The individual funds account for the governmental resources allocated to them for the purpose of carrying on specific activities in accordance with laws, regulations, or other restrictions. The City has various types of funds as defined below.

#### **Governmental funds**

These are the funds through which most governmental functions typically are financed. The funds included in this category are as follows:

General Fund – This fund is established to account for resources devoted to financing the general services that the City performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the City are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established. The General Fund is considered a major fund.

Special Revenue Funds – These funds are established to account for the proceeds of specific revenue sources other than special assessments, expendable trusts, or major capital projects that are legally restricted to expenditures for specified purposes. The City has no major special revenue funds for the current year.

#### **Proprietary funds**

These funds account for operations that are organized to be self-supporting through user charges. The funds included in this category are:

Enterprise Funds – These funds are established to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Major enterprise funds are the natural gas, water and sewer, and sanitation department.

Internal Service Funds – These funds are established to account for the financing of goods or services provided by one department to other departments of the City on a cost-reimbursement basis.

#### **Fiduciary funds**

These funds account for assets held by the City as a trustee or agent for individuals, private organizations, and other units of governments. These funds consist of the following fund types:

Pension Trust Fund – This fund was established to provide pension benefits for employees of the police and fire departments who were not transferred to the hazardous service coverage of CERS.

Nonexpendable Trust Fund – This fund is used to account for the maintenance of the cemetery.

#### C. Basis of Accounting and Measurement Focus

The basis of accounting determines when transactions and economic events are reflected in financial statements, and measurement focus identifies which transactions and events should be recorded.

#### **Government-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities report information on all funds of the primary government except for fiduciary funds. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which primarily rely on feeds and charges for support. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Fiduciary funds are also excluded from the government-wide financial statements.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### C. Basis of Accounting and Measurement Focus - Continued

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. The primary effect of internal activity has been eliminated from the government-wide financial statements. The government-wide Statement of Activities presents a comparison between expenses and program revenues. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants received that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which governmental functions are self-financing or draw from the general revenues of the City. Direct expenses are those that are clearly identifiable within a specific function or activity.

#### **Fund Financial Statements**

Fund financial statements report detailed information about the City. The focus of the governmental and enterprise fund financial statements is on major funds, rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service funds are aggregated and presented in a single column on the face of the proprietary funds statements. Governmental fund types use the modified accrual basis of accounting and the current financial resources measurement focus. Under the modified accrual basis of accounting, revenues are recorded when they are both measurable and available (often referred to as susceptible to accrual).

Revenues are measurable when they are subject to reasonable estimation, while the collection will occur either (1) during the current period or (2) after the end of the period but in time to pay fund liabilities. The City considers revenues to be available if they are expected to be collected within 60 days of the end of the year. Generally, tax revenues (including taxpayer-assessed taxes), fees, and nontax revenues are recognized when received. Grants, entitlements, and shared revenues are recorded when they are susceptible to accrual. Expenditure-based grants are recorded as revenue when the conditions of the grants are satisfied. Property tax revenues are recognized when they are levied, with proper allowances made for estimated uncollectible accounts and delinquent accounts. Expenditures, if measurable, are recorded when they have used or are expected to use current expendable financial resources, except unmatured interest on general long-term debt which is recorded when due. Fiduciary funds account for assets held by the City in a trustee capacity. These funds use the accrual basis of accounting and the economic resources measurement focus.

#### D. Cash and cash equivalents

For purposes of the proprietary statement of cash flows, the City's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition and readily convertible to cash.

#### E. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Interfund receivables and payables arise from activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year and are identified as due to/due from other funds.

#### F. Investments

The City's investment policy requires that funds held by the City be invested in obligations of the U.S. government or U.S. government agencies, or certificates of deposit or similar instruments of banks or savings and loan institutions. Investments are stated at cost, which approximates market, in all funds except the Police and Firemen's Pension Fund. Investments for this fund are stated at fair value.

#### G. Capital Assets

The accounting treatment for capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements. In government-wide and proprietary fund financial statements, capital assets are recorded at historical cost or estimated historical cost if actual is unavailable. It is the City's policy to capitalize expenditures greater than or equal to \$1,000 with an estimated useful life greater than one year. Donated capital assets are recorded at estimated fair market value at the date of donation. Estimated historical cost was used to value infrastructure assets acquired prior to July 1, 2002, in the governmental activities. Depreciation expense is recorded in the statement of activities, and accumulated depreciation is reflected in the statement of net position. In the governmental fund statements, capital assets are accounted for as capital expenditures of the funds upon acquisition.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### G. Capital Assets - Continued

Capital assets acquired for proprietary funds are capitalized within the respective funds. Depreciation has been provided over the estimated useful lives of the capital assets using the straight-line method of depreciation. The estimated useful lives for each major class of depreciable assets are as follows:

|                         | Useful Life |
|-------------------------|-------------|
|                         | (Years)     |
| Infrastructure          | 25 - 50     |
| Utility Plant           | 33 - 50     |
| Machinery and equipment | 5 - 20      |
| Buildings               | 25 - 33     |
| Vehicles                | 4 - 5       |

#### **H. Restricted Assets**

Because of certain requirements, the City established and maintains prescribed amounts of resources (consisting of cash and temporary investments) that can be used only for specified purposes.

#### I. Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applied to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has both deferred outflows and deferred inflows related to its pension plan and other post-employment benefits.

#### J. Compensated Absences

Under terms of employment, the City provides full-time employees with paid vacation and sick leave in varying amounts based on years of service. Employees who have accrued 36 days unused sick leave at the end of the fiscal year are paid for 75% of the sick leave accrued. Employees who have met the minimum accruals and have one or more days of sick leave are paid 50% of the sick leave accrued at the end of the fiscal year. All unused sick leave may be carried forward to apply toward the maximum accrual of 180 days. Employees who have successfully met retirement requirements and have received approval for retirement from the Kentucky Retirement System may elect to either be compensated for 50% of accrued sick leave or apply toward early retirement. The liability for compensated absences is reported as incurred in the government-wide and proprietary fund financial statements. For governmental fund financial statements, a liability is recorded only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

#### **K.** Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Kentucky Retirement Systems (KRS) County Employees Retirement System (CERS) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by KRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the Plan. Investments are reported at fair value.

#### L. Long-Term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements. All long-term debt to be repaid from governmental and business-type resources is reported in the government-wide statements. The long-term debt consists primarily of notes payable and bonds payable. In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources and repayments as expenditures. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

#### **M. Equity Classification**

Equity in the government-wide statements is classified as net position and displayed in three components:

Net investment in capital assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances on any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – This component of net position consists of assets subject to external constraints on their use imposed by creditors, laws or regulations of other governments. This component would also include constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of assets that do not meet the definition of "restricted" or "net investment in capital assets". Generally, these net assets represent those financial resources that are available to the Board to meet any future obligations that might arise.

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on the constraints imposed on the use of these resources. The nonspendable fund classification includes amounts that cannot be spent because they are either (1) not in spendable form – prepaid items or inventories; or (2) legally or contractually required to be maintained intact. At June 30, 2018, none of the City's fund balances were classified as nonspendable.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance – This classification reflects the constraints imposed on resources, either (1) externally by creditors, grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by ordinances of the city council – the City's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the city council removes the specified use by taking the same kind of action imposing the commitment.

Assigned fund balance – This classification reflects the amounts constrained by the City's "intent" to be used for specific purposes, but are neither restricted nor committed. The city council and the mayor have the authority to assign amounts to be used for specific purposed through executive or municipal orders.

Unassigned fund balance – This fund balance is the residual classification for the General Fund. Unassigned fund balance in the general fund is the net resources in excess of what can be properly classified in one of the above four categories.

When restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then committed and assigned, and then unassigned resources as they are needed.

#### N. Property Tax Revenue

Property taxes are levied on September 30 based on the assessed value of property as listed on the previous January 1, and are due on the following October 31. Assessed values are an approximation of market value. Property taxes are recognized as revenue when they are levied because they are considered to be both measurable and available. Proper allowances are made for estimated uncollectible accounts and delinquent accounts.

#### **O.** Postemployment Healthcare Benefits

The City does not provide postemployment healthcare benefits except those mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA) and those provided by CERS. The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the City.

#### P. Postemployment Employment Benefits Other Than Pensions-(OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County Employees' Retirement System (CERS) and additions to/deductions from CERS' fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

#### NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

#### A. Budgets and the Budgetary Process

The City Council adopts an annual operating budget, which can be amended by the council throughout the year. Formal budgetary accounting is employed as a management control for all funds of the City; however, legal budgets are adopted only for the General Fund and Special Revenue Funds. All budgets adopted are prepared in accordance with generally accepted accounting principles.

At the fund level, actual expenditures cannot exceed budgeted appropriations. However, with proper approval by the City Council, budgetary transfers between departments can be made. All budget amendments were approved by the City Council and are included in the "final budget" column of the General Fund budgetary statement presented as required supplementary information.

#### **B.** Deficits in Fund Equity

A deficit of \$283,001 exists in the Central Garage Fund as of June 30, 2018, resulting from excess expenditures incurred and the pension and OPEB adjustments required by the new accounting standards adopted during the current and prior years. The general fund is liable for any deficit in this fund and provides transfers when cash is required.

#### **NOTE 3 – DETAIL NOTES**

#### A. Deposits with Financial Institutions

Deposits are carried at cost. The carrying amount of deposits is separately displayed on the balance sheet as cash and cash equivalents and restricted assets. The City's investment policy requires that funds held directly by the City be invested in obligations of the United States government or United States government agencies, or certificates of deposit or similar instruments of banks or savings and loan institutions. Custodial credit risk of deposits is the risk that in the event of a bank failure the government's deposits may not be returned to it. Interest-bearing and non-interest-bearing deposits are each covered by federal depository insurance up to \$250,000. Deposits over the insured amounts are covered by collateral held by the City's agent in the City's name. At June 30, 2018, all bank balances were covered by insurance or adequately collateralized. All funds are classified as public funds.

#### **B.** Investments

The City's investments are held in trust and asset management accounts for the Police and Fireman's Pension Fund. Investments at June 30, 2018, are summarized below:

|                 | Fair       | Percent  |
|-----------------|------------|----------|
| Investment Type | Value      | of Total |
| Equity          | \$ 661,097 | 70.0%    |
| Fixed Income    | 283,316    | 30.0%    |
|                 | \$ 944,413 | 100%     |

Custodial credit risk – This is the risk that in the event of failure of the counterparty, the City will not be able to recover the value of its investments. The investments listed above are exposed to custodial credit risk in that they are uninsured and held by the counterparty's trust department in the City's name.

Credit risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. At June 30, 2018, the City's investments were rated as shown in the above table.

Concentrations of credit risk – This is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City's investment policy as required by KRS 66.480 does not place a fixed percentage limit for any one issuer. At June 30, 2018, the City had three instances of investments with a single issuer exceeding 5% of total investments, as shown in the above table.

#### NOTE 3 – DETAIL NOTES- Continued

#### **C. Property Taxes**

The City is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation. The property assessment date is January 1, with taxes levied on September 30 and due on October 31. Property taxes receivable as of June 30, 2018, are composed of the following:

| Year of Levy                     | I  | Amount    |
|----------------------------------|----|-----------|
| 2017                             | \$ | 182,593   |
| 2016                             |    | 58,441    |
| 2015                             |    | 56,491    |
| 2014                             |    | 27,568    |
| 2013                             |    | 33,776    |
| Total Property Taxes Receivable  |    | 358,869   |
| Less Allowance For Uncollectible |    | (146,816) |
| Net Property Taxes Receivable    | \$ | 212,053   |

### **D. Interfund Transactions**

Interfund receivables and payables at June 30, 2018, for operating expenses were as follows:

|                     | Due From   | Due To     |
|---------------------|------------|------------|
| General Fund        | \$ 197,383 | \$ 173,889 |
| Central Garage Fund |            | 143,711    |
| Court Award Fund    | 3,944      |            |
| ABC Fund            |            | 197,383    |
| Water & Sewer       | 35,488     |            |
| Gas Fund            | 166,800    |            |
| Sanitation          | 111,368    |            |
|                     |            |            |
| Total Due To        | \$ 514,983 | \$ 514,983 |
|                     |            |            |

The following interfund transfers were made during the year:

|   | General<br>Fund            | Municipal<br>Road Aid<br>Fund | E-911 Fund | ABC Fund    | Water &<br>Sewer | Gas        | Sanitation | Total<br>Transfers In              |
|---|----------------------------|-------------------------------|------------|-------------|------------------|------------|------------|------------------------------------|
| General Fund<br>Water & Sewer Fund<br>Sanitation Fund | \$ -<br>125,000<br>347,596 | \$ 50,000                     | \$ 50,000  | \$1,100,000 | \$ 105,000       | \$ 105,000 | \$ 105,000 | \$ 1,515,000<br>125,000<br>347,596 |
| Total Transfers Out                                   | \$ 472,596                 | \$ 50,000                     | \$ 50,000  | \$1,100,000 | \$ 105,000       | \$ 105,000 | \$ 105,000 | \$ 1,987,596                       |

## NOTE 3 – DETAIL NOTES – (Continued)

#### E. Property, Plant, and Equipment

Capital asset activity for the year is summarized as follows:

|  |                              | Beginning   |           |   |    |  | Ending  |

#### E. Property, Plant, and Equipment - Continued

Depreciation was charged to governmental functions as follows:

| General government | \$<br>37,905  |
|--------------------|---------------|
| Police department  | 152,625       |
| Fire department    | 173,231       |
| Street department  | 306,333       |
| Tourism            | 4,256         |
| Central garage     | 10,508        |
|                    | \$<br>684,858 |

#### **F. Restricted Assets**

Restricted assets at June 30, 2018, consisted of the following cash accounts:

| General Fund                 |              |
|------------------------------|--------------|
| CDBG Housing                 | \$ 65,310    |
| Special revenue funds        | 441,652      |
| Employee benefits            | 853,183      |
| Total governmental funds     | 1,360,145    |
| Water and Sewer              |              |
| Meter deposits               | 355,375      |
| Escrow                       | 77,790       |
| Bond and interest reserve    | 2,743,294    |
| Renewal and replacement      | 540,000      |
| Natural Gas                  |              |
| Meter deposits               | 390,468      |
| Sanitation                   |              |
| Landfill postclosure reserve | 340,000      |
| Total Business-Type funds    | 4,446,927    |
| -                            |              |
| Total Restricted Assets      | \$ 5,807,072 |

#### G. Retirement Plan

*Plan Description*- The City contributes to the Kentucky Retirement Systems (KRS) County Employees Retirement System (CERS), which consists of two plans – Nonhazardous and Hazardous. Each plan is a cost-sharing multiple employer defined benefit pension plan. The plans were established in 1958 by the Kentucky General Assembly in order to supplement the benefits provided by Social Security. Under the provisions of Kentucky Revised Statute Section 61.701, the KRS Board of Trustees administers the Kentucky Retirement Systems Insurance Fund. All regular full-time employees of the City are eligible to participate in the plans. The plans provide for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of members under certain circumstances. Prior to July 1, 2009, cost-of-living adjustments (COLA) were provided annually equal to the percentage increase in the annual average of the consumer price index for all urban consumers for the most recent calendar year, not to exceed 5% in any plan year. Effective July 1, 2009, and on July 1 of each year thereafter through June 30, 2015, the COLA is limited to 1.5% provided the recipient has been receiving a benefit for at least 12 months prior to the effective date of the COLA. The Kentucky General Assembly reserves the right to suspend or reduce the COLA if, in its judgment, the welfare of the Commonwealth so demands. No COLA has been granted since July 1, 2011.

Under the City's plans, any member, age 65 or older, with at least 1 month of service credit may elect to receive a benefit for life that is an actuarial equivalent to twice the member's contributions and interest. A member, age 65 or older, with at least 48 months of service credit is eligible to receive an unreduced monthly benefit for life based on the member's salary and service credit. A member with 27 or more years of service credit can retire at any time with no reduction in benefits. A member with at least 25, but less than 27 years of service credit, may retire at any time, prior to age 65, with a reduction in benefits. A member age 55, with at least 5 years of service credit, may retire with a reduction in benefits. For the year ended June 30, 2018, the City's total covered payroll was \$7,147,724. Covered payroll refers to all compensation paid by the City to active employees covered by the plans.

#### NOTE 3 – DETAIL NOTES – (Continued)

#### G. Retirement Plan – (Continued)

*Contributions*- The contribution requirements of plan members and the City are established by state statute. Employee contributions for plan members who began participating with KRS prior to September 1, 2008, were 5% for nonhazardous employees and 8% for hazardous employees of their annual creditable compensation to KRS. Those who began on or after September 1, 2008, contribute a total of 6% for nonhazardous and 9% for hazardous of all their creditable compensation to KRS. One percent of each employee's contribution is deposited to the KRS Pension Fund 401(h) account for the payment of health insurance benefits. If a member terminates his/her employment and applies to take a refund, the member is entitled to a full refund of contributions and interest in his/her account; however, the 1% contributed to the 401(h) account is non-refundable and is forfeited. Plan members who began participating on or after January 1, 2014, were required to contribute to the Cash Balance Plan, a hybrid plan with characteristics of both a defined benefit plan and a defined contribution plan. Members contribution rates for fiscal year 2015 were adopted by the Board of KRS based on actuarially recommended rates. The required contribution rates for the year ended June 30, 2018, were 19.18% for nonhazardous employees and 31.55% for hazardous employees. The City's contributions to the plans for the year ended June 30, 2018, were \$1,810,973.

*Pension Liabilities*- At June 30, 2017, the City reported a liability of \$8,855,527 for its proportionate share of the net pension liability of the nonhazardous plan and \$13,427,519 for the hazardous plan. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2017, the City's proportion was 0.15129 percent for the nonhazardous plan.

*Pension Expense-* For the year ended June 30, 2017, the City recognized pension expense of \$1,218,302 for the nonhazardous plan and \$2,206,897 for the hazardous plan.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions- At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred<br>Outflows of<br>Resources | Deferred<br>Inflows of<br>Resources |
|--|--------------------------------------|-------------------------------------|
| Difference between expected and          |                                      |                                     |
| actual experience                        |                                      |                                     |
| CERS Nonhazardous                        | \$ 10,984                            | \$ 224,791                          |
| CERS Hazardous                           | 492,506                              | -                                   |
| Difference between projected and actual  |                                      |                                     |
| investment earnings on Plan investments  |                                      |                                     |
| CERS Nonhazardous                        | 701,345                              | 591,814                             |

| measurement date                         |                                      |                                     |
| CERS Nonhazardous                        | 543,083                              |                                     |
| CERS Hazardous                           | 753,837                              |                                     |
| Total                                    | \$ 8,191,436                         | \$ 2,762,370                        |

#### NOTE 3 – DETAIL NOTES – (Continued)

#### G. Retirement Plan – (Continued)

The deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

| Year Ending June 30 |                 |
|---------------------|-----------------|
| 2019                | \$<br>1,779,642 |
| 2020                | 1,946,122       |
| 2021                | 666,606         |
| 2022                | <br>(260,224)   |
|                     | \$<br>4,132,146 |

Actuarial Assumptions- The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation  | 2.3 percent                                |
|--|--|
| Salary Increases   | 3.05 percent, average, including inflation |
| Investment Rate of Return 6.25 percent., net of pension plant investment expense |  |
|  | including inflation                        |

The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.

The actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2008 – June 30, 2013.

The long-term expected rate of return on pension plan investments is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2008 through 2013, is outlined in a report dated April 30, 2014. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return and net of investment expense) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

| Total                | 100%       | 6.56%               |
|                      |            |                     |

*Discount Rate* - The discount rate used to measure the total pension liability was 6.25 percent. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26-year amortization period of the unfunded actuarial accrued liability. The actuarial determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period. The discount rate does not use a municipal bond rate.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 6.25 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25 percent) or 1-percentage-point higher (7.25 percent) than the current rate:

*Plan Fiduciary Net Position* - Detailed information about the Plan's fiduciary net position is available in the separately issued Kentucky Retirement Systems comprehensive annual financial report for the fiscal year ended June 30, 2017.

#### NOTE 3 – DETAIL NOTES – (Continued)

#### G. Retirement Plan - (Continued)

#### Murray Convention and Visitors Bureau

Employees of the Murray Convention and Visitors Bureau, which is reported as a special revenue fund of the City, have an individual employer account with CERS. The basic information about the pension plan has been reported above. Therefore, only those items specific to the Murray Convention and Visitors Bureau are included here.

Contributions - The Murray Convention and Visitors Bureau's contributions to the plan for the year ended June 30, 2018, were \$14,621.

*Pension Liabilities* - At June 30, 2017, the Murray Convention and Visitors Bureau reported a liability of \$189,647 for its proportionate share of the net pension liability of the plan. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Murray Convention and Visitors Bureau's proportion of the net pension liability was based on a projection of their long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2017, the Murray Convention and Visitors Bureau's proportion was 0.003240 percent.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the Bureau's proportionate share of the net pension liability calculated using the discount rate of 6.25 percent, as well as what the Bureaus' proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25 percent) or 1-percentage-point higher (7.25 percent) than the current rate:

|                                    | 1%<br>Decrease<br>(5.25%) |         | count Rate<br>6.25%) | 1%<br>Increase<br>(7.25%) |         |  |
|------------------------------------|---------------------------|---------|----------------------|---------------------------|---------|--|
| CERS:                              |                           |         |                      |                           |         |  |
| Nonhazardous-Net Pension Liability | \$                        | 239,186 | \$<br>189,647        | \$                        | 148,208 |  |

Pension Expense - For the year ended June 30, 2017, the Murray Convention and Visitors Bureau recognized pension expense of \$34,618.

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - For the year ended June 30, 2018, the Murray Convention and Visitors Bureau reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Out | flows of         | Inf                                  | eferred<br>lows of<br>sources  |

#### NOTE 3 - DETAIL NOTES - (Continued)

#### G. Retirement Plan - (Continued)

#### Murray Convention and Visitors Bureau

The deferred outflows of resources resulting from the Murray Convention and Visitors Bureau's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

| Year Ending June 30 |              |
|---------------------|--------------|
| 2019                | \$<br>16,458 |
| 2020                | 18,949       |
| 2021                | 9,711        |
| 2022                | <br>(2,436)  |
|                     | \$<br>42,682 |

#### Police and Firemen's Pension Fund

On August 1, 1988, the City adopted an ordinance to participate in the CERS plan (described above) for all current employees of the police and fire departments, as well as those hired after August 1, 1988. Former employees of the police and fire departments who were receiving benefits on August 1, 1988, were not transferred to CERS. These benefits are continuing to be paid from the Police and Firemen's Pension Fund, a fiduciary fund of the City, which has assets with a fair value of \$1,094,635 at June 30, 2018. An actuarial valuation was performed as of June 30, 2016, and submitted by the actuary in December 2017. However, there was no indication that the plan had adopted the provisions of GASB 67, Financial Reporting for Pension Plans – an amendment of GASB Statement 25, effective for fiscal years beginning after June 15, 2013. This standard revised existing standards of financial reporting by state and local government pension plans. Management is currently evaluating the effects of adopting GASB 68 on this fiduciary plan. None of the previous pension disclosures include any activity in this plan for the current or prior year.

#### H. Postemployment Benefits Other Than Pensions (OPEB)

*Plan Description* – As more fully described in detail retirement plan, the City of Murray participates in the County Employees' Retirement System (CERS). CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the System. In addition to retirement benefits, the plan provides for health insurance benefits to plan members (other postemployment benefits or OPEB). OPEB benefits may be extended to beneficiaries of plan members under certain circumstances.

*Contributions* – As more fully described in Note 7, plan members contribute to CERS for nonhazardous and hazardous job classifications. For the year ending June 30, 2018, the employer's contribution was 4.70% to the insurance trust for non-hazardous job classifications and 9.35% to the insurance trust for hazardous job classifications. Employees hired after September 1, 2008 were required to contribute an additional 1% to cover the cost of medical insurance that is provided through CERS. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last proceeding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis adopted by the Board. The contribution rates are equal to the actuarially determined rate set by the Board. Administrative costs of Kentucky Retirement System are financed through employer contributions and investment earnings.

For the year ended June 30, 2018, the City contributed \$176,280, or 100% of the required contribution for non-hazardous job classifications, and \$317,627, or 100% of the required contribution for hazardous job classifications. Benefits – CERS provides health insurance benefits to Plan employees and beneficiaries. For retirement purposes, employees are grouped into three tiers based on hire date: Tier 1 Participation date Before July 1, 2003 Insurance eligibility 10 years of service credit required Benefit Set percentage of single coverage health insurance based on service credit accrued at retirement Tier 1 Participation date Before September 1, 2008 but after July 1, 2003 Insurance eligibility 10 years of service credit accrued, increased annually Tier 2 Participation date After September 1, 2008 and before December 31, 2013 Insurance eligibility 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually Tier 3 Participation date After December 31, 2013 Insurance eligibility 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually 15 years of service credit required Benefit Set dollar amount based on service credit accrued, increased annually

#### NOTE 3 – DETAIL NOTES – (Continued)

#### H. Postemployment Benefits Other Than Pensions (OPEB)- (Continued)

*OPEB Liabilities, Expense, Deferred Outflows of Resources and Deferred Inflows of Resources* – At June 30, 2018, the City reported a liability for its proportionate share of the net OPEB liability of the nonhazardous plan as \$3,041,467 and \$4,961,451 for the hazardous plan. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the OPEB liability was determined by an actuarial valuation as of that date. The City's proportion of the net OPEB liability was based on a projection of the City's long-term share of contributions to the plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2017, the City's proportion was 0.15129 percent for the nonhazardous plan and 0.0060017 percent for the hazardous plan.

For the year ended June 30, 2018, the City recognized OPEB expense of \$1,101,918. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Deferred

Defensed

|  | Out  | eferred<br>flows of<br>esources | Deferred<br>Inflows of<br>Resources |         |  |
|--|------|---------------------------------|-------------------------------------|---------|--|

|  | ÷ •  | / - /                           |                                     | / /     |  |

The \$514,053 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2019. This includes adjustments of \$37,172 for the nonhazardous implicit subsidy and (\$17,026) for the hazardous implicit subsidy, which are required to be recognized as deferred outflows of resources. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

| Year Ending June 30 |                 |

#### NOTE 3 – DETAIL NOTES – (Continued)

#### H. Postemployment Benefits Other Than Pensions (OPEB)- (Continued)

Actuarial Assumptions – The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Price inflation           | 2.30%   |
|---------------------------|---|
| Payroll growth rate       | 2.00%   |
| Salary increases          | 3.05%, average  |
| Investment rate of return | 6.25%   |
| Healthcare trend rates    |   |
| Pre-65                    | Initial trend starting at 7.25% at January 1, 2019 and gradually  |
|                           | decreasing to an ultimate trend rate of 4.05% over a period of 13 |
|                           | years.  |
| Post-65                   | Initial trend starting at 5.10% at January 1, 2019 and gradually  |
|                           | decreasing to an ultimate trend rate of 4.05% over a period of 11 |
|                           | years.  |

Mortality rates were based on the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females). For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2008 - June 30, 2013. The total OPEB liability was rolled-forward from the valuation date (June 30, 2016) to the plan's fiscal year ending June 30, 2017. Subsequent to the actuarial valuation date (June 30, 2016) but prior to the measurement date, and before the required 2019 experience study, the KRS Board of Trustees reviewed investment trends, inflation, and payroll growth historical trends. Based on this review the Board adopted updated actuarial assumptions, which were used in performing the actuarial valuation as of June 30, 2017.

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. Several factors are considered in evaluating the long-term rate of return assumptions including long-term historical data, estimates inherent in current market data, and a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer time frame. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target allocation and best estimates of arithmetic nominal real rates of return for each major asset class are summarized in the following table:

#### NOTE 3 – DETAIL NOTES – (Continued)

|                      | Target     | Long-Term Expected         |  |  |  |
|----------------------|------------|----------------------------|--|--|--|
| Asset Class          | Allocation | <b>Real Rate of Return</b> |  |  |  |
| US Equity            | 17.5%      | 5.97%                      |  |  |  |
| International Equity | 17.5%      | 7.85%                      |  |  |  |
| Global Bonds         | 4%         | 2.63%                      |  |  |  |
| Global Credit        | 2%         | 3.63%                      |  |  |  |
| High Yield           | 7%         | 5.75%                      |  |  |  |
| Emerging Market Debt | 5%         | 5.50%                      |  |  |  |
| Private Credit       | 10%        | 8.75%                      |  |  |  |
| Real Estate          | 5%         | 7.63%                      |  |  |  |
| Absolute Return      | 10%        | 5.63%                      |  |  |  |
| Real Return          | 10%        | 6.13%                      |  |  |  |
| Private equity       | 10%        | 8.25%                      |  |  |  |
| Cash                 | 2%         | 1.88%                      |  |  |  |
| Total                | 100%       | 6.56%                      |  |  |  |

#### H. Postemployment Benefits Other Than Pensions (OPEB)- (Continued)

*Discount* Rate – The discount rate used to measure the total net OPEB liability was 5.84% and 5.96% for non-hazardous and hazardous classifications, respectively. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26-year amortization period of the unfunded actuarial accrued liability. The discount rate determination used an expected rate of return of 6.25%, and a municipal bond rate of 3.56%, as reported in Fidelity Index's "20–Year Municipal GO AA Index" as of June 30, 2017. However, the cost associated with the implicit employer subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate – The following presents the City's proportionate share of the net OPEB liability calculated using the discount rate as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

|                                 | 1%<br>Decrease<br>(4.84%) |    | Current<br>Discount Rate<br>(5.84%) |    | 1%<br>Increase<br>(6.84%) |
|---------------------------------|---------------------------|----|-------------------------------------|----|---------------------------|
| Nonhazardous-Net OPEB Liability | \$<br>3,870,098           | \$ | 3,041,467                           | \$ | 2,351,915                 |

| Hazardous-Net OPEB Liability | \$ | 3,512,135        | \$ | 4,961,451          | \$ | 6,755,200 |  |

*OPEB plan fiduciary net position* – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report

#### **Murray Convention and Visitors Bureau**

Employees of the Murray Convention and Visitors Bureau, which is reported as a special revenue fund of the City, have an individual employer account with CERS. The basic information about the OPEB plan has been reported above. Therefore, only those items specific to the Murray Convention and Visitors Bureau are included here.

*OPEB Liability*- At June 30, 2018, the Bureau reported a liability of \$65,135 for its proportionate share of the collective net OPEB liability that reflected a reduction for state OPEB support provided to the Bureau. The collective net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the collective net OPEB liability was based on a projection of the Bureau's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the Bureau's proportion was 0.003240% for CERS OPEB.

Sensitivity of the Bureau's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate – The following presents the Bureau's proportionate share of the net OPEB liability calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

| 1%<br>Decrease<br>(4.84%) |        | Current<br>Discount Rate<br>(5.84%) |            | 1%<br>Increase<br>(6.84%) |                    |
|---------------------------|--------|-------------------------------------|------------|---------------------------|--------------------|
|                           |        |                                     |            |                           |                    |
| \$                        | 82,881 | \$                                  | 65,135     | \$                        | 50,368             |
| -                         |        | (4.84%)                             | (4.84%) (5 | (4.84%) (5.84%)           | (4.84%) (5.84%) (6 |

|                                 | (1%)      |      |                    |    | 1%      |  |
| CERS:                           |           |      |                    |    |         |  |
| Nonhazardous-Net OPEB Liability | \$ 49,962 | 2 \$ | 65,135             | \$ | 84,859  |  |

*OPEB expense*- For the year ended June 30, 2018, the Bureau recognized OPEB expense of \$7,422. At June 30, 2018, the Bureau reported deferred outflows of resources and deferred inflows of resources related to the medical expense OPEBs from the following sources:

|  | Deferred<br>Outflows of<br>Resources |        | Inf | eferred<br>lows of<br>sources |
|--|--------------------------------------|--------|-----|-------------------------------|
| Difference between expected and actual experience  | \$                                   | -      | \$  | 181                           |
| Difference between projected and actual investment earnings on Plan investments                                    |                                      |        |     | 3,078                         |
| Change of assumptions  |                                      | 14,173 |     |                               |
| Change in proportion and differences<br>between employer contributions and<br>proportionate share of contributions |                                      |        |     | 151                           |
| Employer contributions subsequent to the measurement date  |                                      | 4,452  |     |                               |
| Total  | \$                                   | 18,625 | \$  | 3,410                         |

Of the total amount reported as deferred outflows of resources related to OPEB, \$4,452 resulting from Bureau contributions subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the collective net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the Bureau's OPEB expense as follows:

| Year Ending June 30 |              |
|---------------------|--------------|
| 2019                | \$<br>1,851  |

| 2021                | 1,851        |
| 2022                | 1,851        |
| 2023                | 2,621        |
| Thereafter          | <br>738      |
|                     | \$<br>10,763 |

#### NOTE 3 – DETAIL NOTES – (Continued)

#### I. Long-Term Liabilities

Long-term liabilities include compensated absences, pension liabilities, and long-term debt of the City. The liability for compensated absences is liquidated 90% by the General Fund, with the remaining amount attributable to internal service funds. Pension liabilities and OPEB, due to their unique nature, are discussed separately in Note 3 and, therefore, are not included in this discussion.

Notes and bonds payable at June 30, 2018, are summarized, as follows:

#### **Governmental Activities**

| BB&T notes payable - due in scheduled maturities through January 13, 2023 | \$<br>221,559    |
|---|------------------|
| TMB note payable -  |                  |
| monthly payments of \$14,003 through                                      |                  |
| July 23, 2035, including interest at 1.75% to 3.25%                       | 2,200,594        |
| Community Financial Services Bank note payable -                          |                  |
| monthly payments of \$8,524 through                                       |                  |
| May 5, 2024, including interest at 2.78%                                  | 556,787          |

#### NOTE 3 - DETAIL NOTES - (Continued)

#### J. Conduit Debt Obligations

As of June 30, 2018, the City of Murray had the following bond issues outstanding related to the acquisition and construction of facilities:

| Murray State University         | \$<br>7,390,000  |
|---------------------------------|------------------|
| Murray Calloway County Hospital | <br>52,110,031   |
| Total principal amounts payable | \$<br>59,500,031 |

#### K. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. To obtain insurance of these risks, the City participates in the Kentucky League of Cities Insurance Services (KLCIS). These public entity risk pools operate as common risk managements and insurance programs for participating cities and other governmental entities in Kentucky. The City pays an annual premium to each fund for coverage. City employees are provided traditional health care insurance that covers hospitalization and major medical expenses within specified limits. The plan is self-funded by the City and administered by a third-party administrator. The City pays the administrator a fee for various claim administration services. The City pays all claims after the third-party administrator who in turn issues individual claim checks. The City carries stop-loss insurance against catastrophic losses. The premiums for these policies are billed by the third-party administrator to the City. The claims liability reported in the Medical Insurance Fund at June 30, 2018 was estimated using information provided by the third-party administrators.

#### L. Commitments and Contingencies

The City has possible contingent liabilities resulting from litigation and claims incident to the ordinary course of business. Management and counsel believe that the probable solution of such contingencies will not materially affect the financial position or results of operations of the City.

#### **M.** Claims and Judgments

The City participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the City may be required to reimburse the grantor government. As of June 30, 2018, significant amounts of grant expenditures have not been audited, but the City believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the City.

#### **NOTE 4 – PRIOR PERIOD ADJUSTMENT**

Beginning net position for June 30, 2017 has been restated due to the implementation of GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The beginning net position was decreased by \$4,992,878.

#### NOTE 5- SUBSEQUENT EVENTS

In preparing the financial statements, management has evaluated transactions and events for potential recognition or disclosure through December 10, 2018, the date financial statements were available to be issued.

#### CITY OF MURRAY, KENTUCKY REQUIRED SUPPLEMENTARY INFORMATION For The Year Ended June 30, 2018

#### Notes to Schedules

The following change was made by the Kentucky Legislature and reflected in the valuation performed as of June 30:

2017-

- The assumed investment rate decreased from 7.5 % to 6.25%
- The assumed rate of inflation was reduced from 3.50% to 2.3%
- Payroll growth assumption was reduced from 4.00% to 2.00%

#### 2015 -

- The assumed investment rate decreased from 7.75% to 7.50%
- The assumed rate of inflation was reduced from 3.50% to 3.25%
- The assumed rate of wage inflation was reduced from 1.00% to 0.75%
- Payroll growth assumption was reduced from 4.50% to 4.00%
- The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).
- For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.
- The assumed rates of Retirement, Withdrawal and Disability were updated to more accurately reflect experience.

#### 2014 -

• A cash balance plan was introduced for members whose participation date is on or after January 1, 2014.

#### Changes of assumptions-

The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30:

2013 -

• The amortization period of the unfunded accrued liability was reset to a closed 30-year period.

#### Method and assumptions used in calculations of actuarially determined contributions-

The actuarially determined contribution rates are determined on a biennial basis beginning with the fiscal years ended 2014 and 2015, determined as of July 1, 2013. The amortization period of the unfunded liability has been reset as of July 1, 2013 to a closed 30-year period. The following actuarial methods and assumptions were used to determine contribution rates reported in that schedule:

- Actuarial cost method
- Amortization method
- Remaining amortization period
- Asset valuation method
- Inflation
- Salary increase
- Investment rate of return

Entry age Level percentage of payroll, closed 30 years 5-year smoothed market 3.5 percent 4.5 percent, average, including inflation 7.75 percent, net of pension plan investment expense, including inflation

#### CITY OF MURRAY, KENTUCKY NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For The Year Ended June 30, 2018

#### **NOTE 1 - BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Murray, Kentucky, under programs of the federal government for the year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City of Murray, Kentucky, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Murray, Kentucky.

#### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87 Cost Principles for State, Local and Indian Tribal Governments, or the cost principles contained in Title 2 U. S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards,* wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

#### NOTE 3 - IN-DIRECT COST RATE

The City of Murray, Kentucky has not elected to use the 10-percent de minims indirect cost rate allowed under the Uniform Guidance.

INTERNAL CONTROL AND COMPLIANCE SECTION

#### Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Mayor Dr. Jack Rose and Members of the City Council City of Murray, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Murray, Kentucky as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Murray, Kentucky's basic financial statements, and have issued our report thereon dated December 10, 2018.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City of Murray, Kentucky's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Murray, Kentucky's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Murray, Kentucky's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Murray, Kentucky's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance in Accordance With the Uniform Guidance

Honorable Mayor Dr. Jack Rose and Members of the City Council City of Murray, Kentucky

#### **Report on Compliance for Each Major Federal Program**

We have audited the City of Murray, Kentucky's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of the City of Murray, Kentucky's major federal programs for the year ended June 30, 2018. The City of Murray, Kentucky's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Murray, Kentucky's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Murray, Kentucky's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Murray, Kentucky's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, the City of Murray, Kentucky complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

#### **Report on Internal Control over Compliance**

Management of the City of Murray, Kentucky is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Murray, Kentucky's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Murray, Kentucky's internal control over compliance.

## Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance in Accordance With the Uniform Guidance (Continued)

#### **Report on Internal Control over Compliance (Continued)**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Murray, Kentucky, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Murray, Kentucky's basic financial statements. We issued our report thereon dated December 10, 2018 which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the audit requirements of the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
